PROFESSIONAL SUMMARY

Results-driven B.Tech Computer Science graduate with strong proficiency in Python, Django, and full-stack web development. Hands-on experience building Python-based applications, database-driven systems using MySQL, and scalable web solutions. Proven ability to develop, test, and maintain software with a solid foundation in OOP, RESTful APIs, data analysis, and the software development life cycle (SDLC). Eager to apply Python development skills in a graduate engineering role and contribute to innovative, large-scale technology projects.

PROFESSIONAL EXPERIENCE

Junior Developer Intern

Orisys InfoTech Pvt. Ltd.

Apr 2025 – Mar 2026

Bhubaneswar

- Developed and maintained large-scale government websites (OFDC & MKCG) using PHP and jQuery, serving thousands of users.
- Optimized SQL queries resulting in measurable reduction in page load time, improving overall application performance.
- Fixed critical UI bugs, improved frontend components, and collaborated with senior developers on feature enhancements.
- Followed agile development practices and participated in code reviews and sprint planning sessions.

Python Trainee

Lakshay Institute of Technology

Jun 2024 – Nov 2024

Bhubaneswar

- Built a Student Database Management System using Python and MySQL, enabling CRUD operations on student records.
- Designed and developed user-friendly GUI interfaces using Tkinter, improving user interaction and system usability.
- Strengthened skills in Python programming, database design, and data management workflows.

Web Development Intern

Aspire InfoLab

Sep 2023 – Oct 2023

Hyderabad

- Gained hands-on experience building responsive HTML/CSS blogs and portfolio websites from scratch.
- Performed software testing for Happily Health and Spotify applications, logging bugs and creating 25 comprehensive test cases in MS Excel.
- Developed structured QA documentation improving defect tracking and reporting accuracy.

PROJECTS

Desttrip – Travel Destination Management System | PHP, MySQL, XAMPP, HTML/CSS

- Developed a full-stack travel website with user authentication, destination browsing, itinerary management, and review features. Designed relational database schema for users, destinations, bookings, and reviews with an admin panel for data management.

URL Shortener Platform | Python, Django, MySQL, HTML/CSS

- Built an end-to-end URL shortening web application using Python and Django framework, enabling users to generate custom short links and track real-time usage statistics. Implemented MVC architecture, URL routing, database models, and a live analytics dashboard.

EDUCATION

B.Tech in Computer Science & Engineering

Gandhi Institute For Technology, Bhubaneswar (BPUT)

Nov 2021 – Jun 2025

CGPA: 7.68 / 10

Higher Secondary Certificate (HSC – Science)

Nachuni Higher Secondary School, Khordha, Odisha

2019 – 2021

TECHNICAL SKILLS

Languages: Python, PHP, JavaScript, HTML5, CSS3, SQL

Frameworks & Libraries: Django, Laravel, Flask, React.js, jQuery, Tkinter

Databases: MySQL, SQL query optimization, database design

Tools & Platforms: Git, GitHub, VS Code, XAMPP, Power BI, MS Excel

Concepts: OOP, RESTful APIs, SDLC, Agile, Software Testing, Data Analysis

CERTIFICATIONS

- HTML and CSS – Infosys Springboard
- Manual Software Testing – Infosys Springboard
- Python and MySQL Internship Completion – Lakshay Institute of Technology
